

Bloom Asset Management was again ranked one of the Top 100 Fee-Only Wealth Management Firms in the U.S. for 2015 and Number One in Michigan for the second consecutive year.

Top 100 rankings were based on a methodology CNBC Digital developed to measure a variety of elements to determine a firm's ranking, including assets under management; the amount of staff with professional financial designations; average account size; growth of assets; and years in business.

Bloom Asset Management partner Rick Bloom was also named one of the Top Financial Advisors in the United States for 2016 by Barron's magazine; the second consecutive year he has earned this award.

In addition to being named to the CNBC Top 100 Fee-Only Wealth Management Firms in the U.S., Bloom Asset Management, a registered investment advisor firm, has been consistently ranked on Crain's Detroit Business' List of Largest Money Managers.
